Portfolio: sreeragportfolio.netlify.app

PROFESSIONAL SUMMARY

BCA Data Science graduate with hands-on, project-based experience in business intelligence, data analysis, and dashboard development using Power BI, Tableau, Excel, SQL, and Python. Skilled in data cleaning, exploratory analysis, KPI reporting, data transformation, and turning complex datasets into clear visual insights. Interested in building reliable, user-focused analytics solutions that support business decisions and stakeholder needs.

TECHNICAL SKILLS

BI & Visualization: Power BI, Tableau, dashboard design, KPI reporting, data storytelling
Data Preparation: Power Query, Excel, data cleaning, transformation, validation, EDA
Querying & Programming: SQL, MariaDB, Python, Pandas, NumPy, Matplotlib
Analytics: Trend analysis, feature engineering, regression, classification, model evaluation
Tools: Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

Climate-Aware Disease Outbreak Prediction | Python, Pandas, scikit-learn, Tableau-style dashboard
- Prepared and analyzed a dataset combining disease cases with rainfall, temperature, and humidity indicators.
- Built time-aware features and compared machine-learning approaches to explore relationships between climate patterns and disease risk.
- Developed a visual reporting concept to communicate trends and potential risk patterns clearly.

Customer Churn & Revenue Impact Analysis | Python, machine learning, Power BI
- Analyzed customer churn patterns and developed classification workflows to identify customers at risk of leaving.
- Explored customer value and revenue implications to support retention-focused business recommendations.
- Presented analytical findings through dashboard-oriented reporting and visual summaries.

Olist E-commerce Data Analysis | SQL, MariaDB
- Queried multi-table e-commerce data to examine orders, products, customers, and sales performance.
- Used SQL-based analysis to derive business metrics and organize findings for reporting.

VIRTUAL EXPERIENCE

Deloitte Australia — Data Analytics Job Simulation, Forage | 2026
- Worked through data validation and cleaning, Excel-based exploratory analysis, and business reporting tasks.
- Created an interactive Tableau dashboard to communicate analytical findings.

Tata iQ — GenAI-Powered Data Analytics Virtual Experience, Forage | 2026
- Identified customer delinquency risk indicators and outlined a no-code predictive framework and AI-supported collections strategy.

EDUCATION

Bachelor of Computer Applications (BCA), Data Science | Acharya Institute of Graduate Studies, Bengaluru
2023–2026

CERTIFICATIONS

- IBM Data Science Professional Certificate
- Data Science Internship Certificate — Coding Monks Innovations
- Anthropic AI Fluency Framework & Foundations; AI Capabilities and Limitations; Introduction to Claude Cowork
